

# EAST SUSSEX NATIONAL GOLF CLUB

## SCHEDULED COURSE MAINTENANCE FOR 2021/2022/2023

### 2021

April – May there are no planned course closures for maintenance

Monday 9th August until Friday 13<sup>th</sup> - West Course

Monday 20th September until Friday 24<sup>th</sup> - East Course

### 2022

April – May there are no planned course closures for maintenance

Monday 8th August until Friday 12<sup>th</sup> - East Course

Monday 5th September until Friday 9<sup>th</sup> – West Course

### 2023

April – May there are no planned course closures for maintenance

Monday 7th August until Friday 11<sup>th</sup> - West Course

Monday 4th September until Friday 8<sup>th</sup> - East Course

#### NATURE OF THE WORK –

- Hollow-coring will take place to remove thatch layers in greens.
- The greens are top-dressed with sand to improve roll of ball.
- Courses will be closed for work
- We aim for a 2 week recovery
- There will be disruption to the putting surfaces

I have attached a link to a videos explaining the work, which shows surface finish and the importance of this maintenance work to the health and performance of the greens.
